

Water Resource Management 2007
May 21-23, 2007
Kos, Greece

Hromadka Prize

Two Hromadka prizes were awarded during the Meeting as well as an Eminent Scientist Medal. The prizes were instituted by Professor Ted Hromadka, a member of the Board of Directors of the Institute. Ted has been associated with WIT since its beginning, and has contributed in many ways to its development. His brief CV demonstrates the extent of his interests:

Theodore Hromadka II: M.A., Ph.D., Engineering (Water Resources), University of California; B.A., M.A. and Ph.D., applied mathematics and computer modeling, California State University, and University of California; Ph.D., transport modeling methods, Wessex Institute of Technology. Licensed Civil Engineer; Licensed Geoscientist; Certified Professional Hydrologist, and Certified Professional Hydrogeologist. Surface and Ground Water expert; Principal Hydrologist, Hromadka & Associates; Professor Emeritus, California State University; Adjunct Professor, and member of the Board of Directors, Wessex Institute of Technology; Professor, United States Military Academy at West Point. Dr. Hromadka has extensive scientific, engineering, and litigation support experience, serving as an expert witness in more than 200 cases. His frequently referenced scientific contributions to the Hydrologic, Earth, and Atmospheric Sciences have been published in peer-reviewed scientific literature including 20 books, and over 350 scientific papers and book chapters. His professional engineering experience includes supervision and development of over 1000 engineering studies. Engineering and scientific computer software developed by Dr. Hromadka is widely used throughout the engineering community.

Dr Hamed Assaf

The first Hromadka Medal was given to Professor Jorge de las Heras from the University of Castilla-La Mancha in Spain for his paper at the Water Resources Management Conference, entitled “Spatial and temporal distribution of Nitrate contents in the Mancha Oriental Hydro-geological System, SE Spain:1998-2003”.

The other Hromadka Medal was awarded to Dr Hamed Assaf from the American University of Beirut in Lebanon for his presentation “Assessing Ground Water Quality conditions in the upper Litani River basin utilising geostatistical analysis tools”.
