

Water Pollution 2012  
11<sup>th</sup> International Conference on Modeling, Monitoring and Management of Water Pollution  
July 10-12 2012  
New Forest, UK

## Hromadka Prize

Following the keynote address Professor Carlos A Brebbia proceeded to award the 2012 Hromadka Medal to Professor Zappala as follows:

'Because of all his achievements I would like to take this opportunity to award Giuseppe the Hromadka Medal that was instituted by a member of our Board of Directors.

'The Medal and Prize was launched by Professor Ted Hromadka, who sits in WIT's Board, in memory of his late father. Ted is recognised worldwide for his pioneering research in developing new computational techniques, as well as for his professional engineering work on hydrates and hydrology. He has numerous publications, including papers and books and has helped to develop better standards of practice in his native California. Ted is currently Professor at the West Port Academy'

The medal is given to a colleague in recognition of outstanding work in the water resources field. Carlos then explained that on this occasion it was a great pleasure to offer it to Giuseppe.

Prof. Brebbia & Prof Zappala
